Summer-2012

[Summer burns in!]

The word for this summer is “toasty”. Summer arrived early this year with record temperatures and extreme drought conditions throughout the USA. Everyone has their own theory as to what is causing the extreme heat. The fact is, it is happening.

My personal theory is that this is a natural cycle of weather events. And, after the warming comes the big cool down. If you ever saw the SCI-FY movie “Day after Tomorrow”, you will note that events can happen very quickly.

Events

Shiloh - Obituary

Shiloh, beloved companion of Frank and Marcia for twelve years, eleven months. Born about 9/5/99. Died 8/8/12. Shiloh began his journey to the Rainbow Bridge about 7:30am.

If I had to describe Shiloh in one word, it would have to be extraordinary. And, that would be a gross understatement for this remarkable companion. He taught me so much. We now have a Shiloh shaped hole in our hearts. Shiloh is survived by his sister/littermate Pumpkin.

Obama is a fraud!

As is normally the case, the facts come to light, eventually. The video that shows Obama in his own words admit that he is not an American Citizen and that he was born in Kenya is proof positive. The video was made during Obama's campaign for the US Senate. This means that Obama has pulled off the biggest scam since PT Barnum. I have the video on my Facebook page.
